

Panasonic Stereo Headphones

Model RP-HT21M Operating Manual

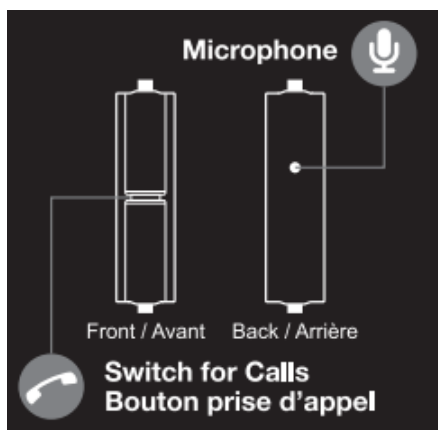

This model is compatible with devices that use a 3.5mm, 3 conductor TRS (tip / ring / sleeve) connector. Inset the plug into a compatible audio input.

To use this model for audio devices without a 3.5mm audio outlet would require an adapter. (not included).

WARNING: Avoid wearing your headphones when driving, cycling or in other situations where either quick reactions are required or where hearing must not be impaired. Do not wear your headphones for extended periods of time at high volume.
